OUR TARGET HOME

FIG.01

THE CONCEPT

WHY WE EXIST

A GYM YOU DON'T JUST JOIN. ONE YOU COMPETE IN.

REDLN is a purpose-built venue for competitive fitness — a permanent home for the Hyrox-style team-race format that has turned everyday athletes into a global movement. Under one roof we combine a **competition arena, coached boutique training**, a calendar of **live events**, a **performance retail store** and a **fuel café**.

Boutique studios sell the workout. Commercial gyms sell access. Neither sells the thing people actually want to be part of — **the competition, the leaderboard, the team, the belonging**. REDLN makes competition the product, and makes it available every single day.

FIG.02

THE NEW CATEGORY

FIRST MOVER

COMPETITIVE FITNESS CLUB.

Competition fitness has proven there is enormous, unmet demand for **amateur competition** — everyday athletes paying to race, train for a result, and belong to a scene. But today that demand is served by **events**: itinerant, a few times a year, in rented halls. Between races, athletes train wherever they can — in gyms built for general fitness, not for the race.

REDLN closes that gap. We give the competition format a permanent home — a venue engineered around the race, with live scoring, seasons, leaderboards, coached preparation and a spectator floor. Not another boutique studio, not another commercial gym. **A new category — the Competitive Fitness Club** — train, compete, spectate and belong, year-round, in one place.

BOUTIQUE STUDIO

- Coached classes, good energy
- A workout you feel
- Regulars on the timetable
- Great for training – not racing

COMMERCIAL GYM

- Equipment and space
- Train on your own schedule
- Flexible, low-commitment
- Great for access – not racing

REDLN – COMPETITIVE FITNESS CLUB

- Coaching **and** a real race
- A ranked, chip-timed result – every season
- A team and a scene that need you there
- Something to chase, all year round

FIG.03

THE CONCEPT

FOUR SIDES, ONE ARENA

FOUR SIDES. ONE ARENA.

REDLN brings **four sides of the business** under one roof. They share one competition arena and one community, so each feeds the others: events bring people in, training keeps

them, and the café and store make the most of the time they already spend on site.

01 · EVENTS

COMPETITION EVENTS

Ticketed team-race competitions on the arena floor, with spectators and sponsors — the brand engine, and the reason the category exists.

02 · TRAINING

GROUP TRAINING

Coached boutique classes that prepare members for the race format — programmed in seasons, ranked on the leaderboard.

03 · F&B

THE CAFÉ

Coffee, shakes and recovery — a reason to arrive early and stay late, turning dwell time into everyday energy.

04 · RETAIL

THE STORE

Performance apparel and gear that lets members wear the badge outside the venue — a walking brand billboard.

The glue: the permanent competition floor with live scoring, seasons and leaderboards is the stage all four share, and the reason they stick. Members join teams; teams compete across seasons. You don't quit mid-season, and you don't quit on your team.

BUILT LIKE A VENUE. RUN LIKE A **SPORT.**

REDLN is designed to be felt the moment you walk in – raw, industrial and cinematic, closer to a concert floor than a fitness studio. Race days run as a live production on the arena floor: a DJ, a crowd in the stands, lights and haze over the lanes, and a leaderboard that updates the instant a time posts. That experience is exactly why the right building matters.

BUILDING

INDUSTRIAL CHARACTER

A warehouse or industrial shell – raw concrete, exposed structure, real volume. We amplify the space, not fight it.

HEIGHT

CLEAR CEILING HEIGHT

Generous head height for truss rigging, lighting and production over the racing lanes.

STRUCTURE

OPEN CLEAR SPAN

A column-light hall so lanes, training and a spectator floor sit under one uninterrupted roof.

POWER

CAPACITY FOR PRODUCTION

Electrical capacity for AV, lighting and event nights.

ACCESS

LOAD-IN & PARKING

Room to load in event kit, and visitor parking nearby for members and spectators.

FRONTAGE

PRESENCE

A frontage we can brand – an athlete entrance that reads as an arena, not a unit.

Exact sizing is flexible – we shape the fit-out to the unit. The priorities are volume (height), openness (clear span) and character.

FIG.05

WHY ALSERKAL AVENUE

THE RIGHT FIT

THE RIGHT BUILDING. THE RIGHT CROWD.

THE SPACE

THE ARCHITECTURE TELLS OUR STORY

Converted warehouses, raw concrete and volume are the exact canvas REDLN is designed for. No need to fake industrial character – it's already there.

THE PEOPLE

A COMMUNITY THAT MATCHES OURS

Alserkal draws a design-led, active, socially engaged audience – precisely the members who pay for a premium, experiential concept and share it.

THE PULL

A DESTINATION, NOT FOOTFALL

REDLN is a place people travel to. Alserkal's identity as a cultural destination fits a brand built on events, seasons and reasons to gather.

THE MIX

A TENANT THAT ADDS TO IT

Sport, culture and community under one roof – a new kind of anchor that complements the galleries, studios and F&B already on the Avenue.

FIG.06

THE ASK

LET'S TALK

LET'S FIND OUR HOME.

We noticed Alserkal Avenue has units available, and it's the first place we picture REDLN. We'd welcome the chance to explore them with you.

What we'd love to know:

- Which units are currently available – sizes and ceiling heights.
- Indicative rent and available lease terms.
- An opportunity to view the space and discuss fit-out.
